

35th ANNUAL  
Chicago  
INTERNATIONAL  
Children's  
Film Festival

Presented by  
Facets

November 1—9  
2018

## Build a new world.

We invite kids, teens, families, and educators to come together at our 35th annual Festival to explore the theme BUILD.

BUILD can mean a lot of things. But for us, it reflects an essential part of our mission: the role of film in building bridges, overcoming divisions, and expanding perspectives through empathy-driven storytelling.

The 246 films from 44 different countries in this year's Official Selection address these issues in exciting and important ways. From documentaries about the refugee experience to fiction narratives about blossoming friendships and family heritage, the films approach the world of contemporary kids and teens with nuance, artistic excellence, and beauty.

We hope that our Festival inspires audiences to build a new world that is empathetic, open, and magical.

See you at the cinema!

The Chicago International Children's Film Festival aims to set an internationally-recognized standard of excellence in film production for children and youth.

We strive to support the work of talented and dedicated filmmakers by showcasing international films of the highest quality and awarding prizes in multiple categories of production formats and genres.

We also provide professional forums to enable quality youth films to gain increased distribution and access to wider audiences. The film experiences of young viewers are deepened through a broad range of programs which extend Festival film viewing into discussion and learning.

### Presented by Facets

The Festival is operated by Facets, a nonprofit that connects over 30,000 people annually to independent ideas through transformative film experiences.
